SAFETY

Disinfecting is a relatively user-friendly activity if the proper precautions are taken to ensure safety.

- It is advisable to wear gloves as skin irritation could occur with prolonged exposure.
Always keep out of reach of children and animals.
- Do not take in orally - harmful if swallowed. Seek medical attention and do not induce vomiting.
- If accidental contact with skin, wash immediately with soap and water or a good quality skin cleaner.
- If accidental contact with eyes, rinse immediately with plenty of water and seek medical advice.
- Wear a respirator if the area being sanitized cannot be adequately ventilated, and work for short periods only.
- Ventilate the area to be sanitized, opening all doors and windows, and using fans during application and drying.
- Choose an area inaccessible to children and pets, and when they are thoroughly dry, take them to a toxic-waste dump site.
